Introducing AUSSIE UMBRELLAS

Aussie Outdoor Umbrellas have the ability to mount 4 umbrellas on one mast. This brilliant design is a world leader and in a class of its own.

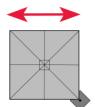

Thanks to modern gas-strut technology, each umbrella can be opened and closed individually with ease.

No ropes and pulleys | No winding crank systems | One easy sliding movement

Optional 'rain-gutter' for connecting adjoining umbrellas to increase weather proof area.

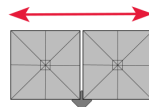

- Manufactured from marine-grade, powder-coated aluminium, stainless steel and other non-corrosive materials
- Patented 'One-movement' Sliding System for opening and closing the Umbrella
- Provides cover for up to 38m²
- Utilises gas-strut technology for ease of deployment
